THE BEST CHOICE

ABOUT US

Our history

KCT (KERGRES2000) is an international company dedicated to the design, manufacturing and commercialization with a world reference in the Ceramic sector. KCT has been active in the construction for over 20 years offering our own as well as exclusive ranges of white body tiles and porcelain ceramics in various sizes and designs. It has since undergone progressive growth and strong expansion, becoming a leader in the field and contributing to the industry with innovation and technology. Our company specializes in finding bespoke and precious materials and supplying quality products at the best prices for project work and large scale installations all around the world. We have export to five continents and have showrooms all around the world. Over the years, KCT has become synonymous with innovation. New techniques are diligently applied to create tiles that stand apart and speak the language of your soul. Hence every year, we come up with exciting new concepts that voice new emotions and keep up with current trends.

Our commitment

We have our own experts in the material selecting from the countries the materials originated from where our affiliated operating companies manage production based on market demand. Our unwavering commitment to innovation and perspective appreciation of architecture and designs are two constants that made us what we are today. All of our products are checked and tested before being placed on the market. Exclusive and standard range of products are checked in our laboratory facilities to carry out high-level projects combining tradition and experience with most innovative technology. In our creative Lab, day after day we break down every technological and stylistic barrier; we chart new frontier in ceramic processing and develop bespoke collection inspired by the boundless wonder of nature. Our attention to detail enables us to think big, even in terms of numbers. With our integrated warehouse management and material storage systems, large available spaces and efficient working method, thanks to our highly mechanized production process and logistics we are able to handle any request and manage large orders.

Mission, Vision and Values

The vision of our business is to be the forefront of the worldwide business of the Ceramic producing. Continuously innovative and develop our products, systems, processes and services to ultimately have a satisfied customer base, create value for the shareholder and have a motivated and qualified staff. Our values are performance, success, integrity, motivation and flexibility. Team spirit is present in all our activities; We face our challenges together and in a professional manner.

Sustainability

KCT can confidently state that we are taking on series of robust commitments in sustainability and conducting responsible management in all processes related to design and marketing of our products. Our products have been evaluated by carrying out a life cycle analysis, from the extraction of raw materials, through production, to the recovery of construction and demolition waste. This analysis has been carried out in accordance with international standards.

Quality Management

KCT has a quality management system which leads the company to managerial excellence and talking quality as its hallmark, the key points for complying with standards are

- Improving customer satisfaction
- Increasing employees commitment to quality.
- Optimizing the operations of business and marketing services
- Committing to continuous improvement

Environment

KCT has an environmental management system to identify and minimize the impact of its operations on atmospheric emissions, waste water, other waste and noise pollution. The company is committed to complying with all current environmental legislation. We have signed up to integrated management system for selective collection and recovery of waste for treatment, recycling and appraisal.

MANUFACTURING TECHNOLOGY

Energy Saving

Each raw material used, each productive process and each technology of the complex activity of the KCT BUILDING MATERIAL sites are studied in order to reduce the environmental impact, by saving recycling, filtering, with the will of transforming the waste in resources and optimize the use of energy. KCT BUILDING MATERIAL is on the cutting-edge of adopting ecologically sustainable practices and this is demonstrated by the most accurate controls, repeated on a daily basis.

Low Gas to Atmosphere

Products commercialized by KCT BUILDING MATERIAL meet all the norms required by global manufactured goods, imposed by the global law concerning environmental issues. These legal requirements have encouraged us even further when setting our own international goals; leading to a minimization of any environmental impacts which can derive from our manufacturing process.

Water Recycling from The Production Process

We reuse of the water from our production processes, apply cogeneration to make the most of the energy we use, reintegrate the waste products from each process into our ceramic tiles

Recycling of Fired Material

KCT BUILDING MATERIAL is committed to the principles of ISO 14001-2015 environmental management standards. Green goods production in order to minimize the environmental impacts in their life cycle reduce waste production, and promote environmental culture development is one of the most significant priorities in this industrial group.

CE Product Standard Certification Confirmed by European Union from CELEB in Italy.

- The technical information written on the product package should be read.
- The product type based on the applied space should be carefully chosen.
- The shade, model and caliber options on the cartons of the products should be the same. One of the tips for the better performance of the products is to pay attention to the correct installation instructions and the following steps.

- Вы должны прочитать техническую информацию, написанную на упаковке продукта.
- Тип продукта должен быть тщательно выбран в соответствии с областью, на которую он будет наноситься.
- Цвет, модель и опции, указанные на упаковке, должны совпадать. Один из советов для повышения производительности продукта тщательно следовать правильным шагам и инструкциям по установке.

- Se debe leer la información técnica escrita en el paquete del producto.
- El tipo de producto basado en el espacio aplicado debe elegirse cuidadosamente.
- Las opciones de color, modelo y calibre en las cajas de los productos deben ser las mismas. Un consejo importante para el mejor rendimiento de los productos es prestar atención a las instrucciones de instalación correctas y los siguientes pasos.

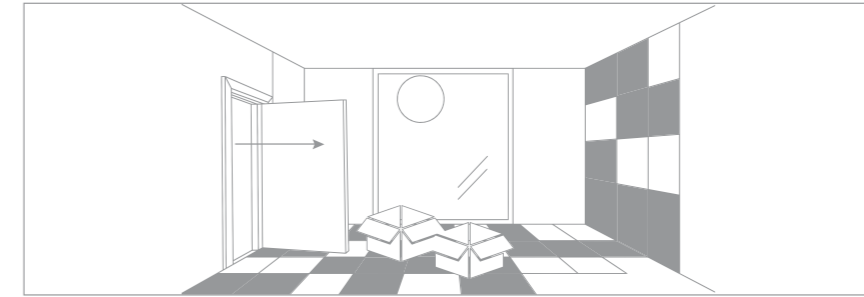

Support

- The installation place should be smooth, even and sturdy hard.
- The installation place must be free of dust or dirt.
- Avoid installing the product in very hot or cold temperatures.
- The above conditions are the same for the floor and wall products.

Поддержка

- Место установки должно быть гладким, ровным и иметь герметичную конструкцию.
- Место установки не должно быть загрязнено или запылено.
- Избегайте установки изделия при очень низкой или высокой температуре.
- Вышеуказанные условия одинаковы для напольных и настенных изделий.

- El lugar de instalación debe ser liso, uniforme y resistente.
- El lugar de instalación debe estar libre de polvo o suciedad.
- Evite instalar el producto en temperaturas muy altas o bajas.
- Las condiciones anteriores son las mismas para los productos de piso y pared.

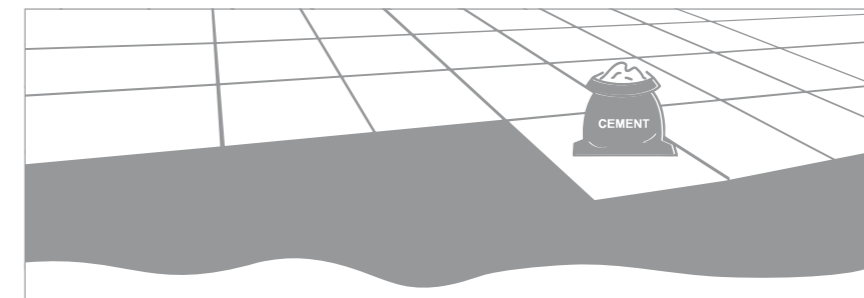

Material

- It is recommended that to use the product sections by random selection in the target space.
- If the product has any various different shade or graphics, the random selection and installation is necessary.

Материалы

- Рекомендуется использовать секции продукта диафрагмально в целевой области.
- Если товар разного цвета и формы, необходим случайный выбор и состав.

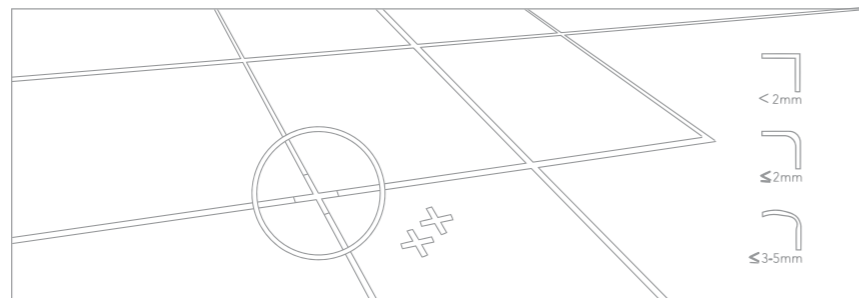

- Se recomienda utilizar las secciones del producto mediante selección aleatoria en el espacio objetivo.
- Si el producto tiene varios tonos o gráficos diferentes, es necesaria la selección e instalación al azar.

- The use of filler mortars, tile adhesives and other adhesives should be proportional to the type of purchased product and these should be usable in the interior-exterior spaces, floor-wall surfaces and flat and non-planar surfaces.
- remark: The manufacturer instructions should be read necessarily when installing.

- Использование раствора для затирки швов, клея для плитки и других клеев должно быть совместимо с типом приобретаемого продукта и должно подходить для использования на внутренних и наружных работах, на стенах и полу, на плоских и неровных поверхностях.
- Примечание. При установке необходимо прочитать инструкции производителя.

- El uso de morteros de relleno, adhesivos para losetas y otros adhesivos debe ser proporcional al tipo de producto adquirido y estos deben ser utilizables en los espacios interiores-exteriores, superficies de piso-pared y superficies planas y no planas.
- Observación: Las instrucciones del fabricante deben leerse necesariamente al instalar.

- In order to properly install the products, the cross or parallel linings should be used. The cross parallel linings are used for more beautiful installation, where the important technical issues (concerns), the alignment of the products and the prevention of any deformation on wall and floor surfaces should be considered.
- The minimal use of the offered cross linings will help you to make your ceramic installation more comfortable, fascinating and elegant. Therefore, in order to prevent any fault, the following items should be considered:
- Rectified products: at least 2 mm
- Non-rectified products: at least 2 mm
- Rastic products: 3 - 5 mm
- Remark: Regardless of the values written, the compliance with the installation rules of each region (country) is necessary, when the products are installed.

-Для правильной установки продукта необходимо использовать перекрестные или параллельные линии. Пересекающиеся параллельные линии используются для более красивой укладки, при технических проблемах необходимо учитывать соосность изделий и не допускать деформации поверхностей стен и пола.

Использование минимального количества показанных пересекающихся линий помогает сделать укладку керамической плитки более удобной, очаровательной и элегантной.

-Поэтому во избежание ошибок следует учитывать следующие ресурсы:

- Исправленные продукты: не менее 2 мм
- Неисправленные продукты: не менее 2 мм
- Крупные продукты (сельские): 3-5 мм

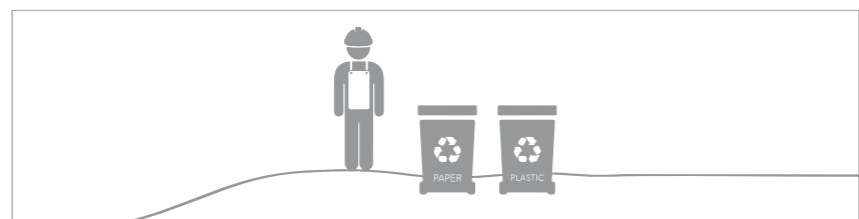

-Примечание: Независимо от написанных значений, соблюдение правил установки в каждом регионе (стране) необходимо при установке продуктов.

- Para instalar correctamente los productos, se deben utilizar los revestimientos cruzados o paralelos. Los revestimientos paralelos cruzados se utilizan para una instalación más bella, donde se deben considerar los problemas técnicos importantes, la alineación de los productos y la prevención de cualquier deformación en las superficies de la pared y el piso.

- El uso mínimo de los revestimientos cruzados ofrecidos lo ayudará a hacer que su instalación de cerámica sea más cómoda, fascinante y elegante. Por lo tanto, para evitar cualquier falla, se deben considerar los siguientes elementos:

- Productos rectificadas: al menos 2 mm.
- Productos no rectificadas: al menos 2 mm.
- Productos rásticos: 3 – 5 mm.

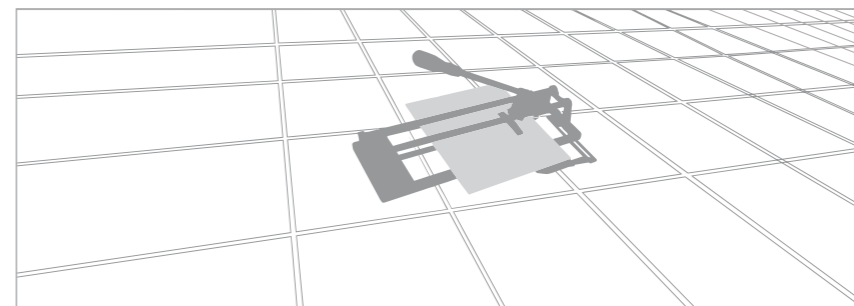

Observación: Independientemente de los valores escritos, el cumplimiento de las reglas de instalación de cada región (país) es necesario cuando se instalan los productos.

- Any generated wastage (carton and plastic) should be segregated in appropriate places for recycling.

- Любые полученные отходы (картон или пластик) должны быть отсортированы в специально отведенных местах для переработки.

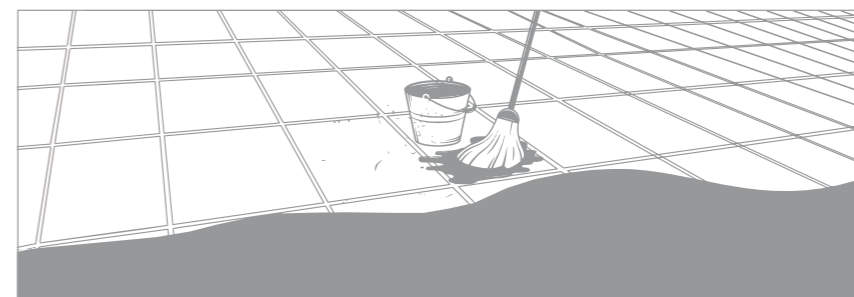

- Cualquier desperdicio generado (cartón y plástico) debe ser segregado en lugares apropiados para reciclaje.

- For cutting the ceramic pieces, you can use a hand cutter.
- For cutting the harder pieces, you can use the electrical cutter with higher than 1 horsepower with water to cool the machine.

- Для резки керамических изделий можно использовать ручной резак.
- Чтобы больше нарезать более жесткие куски, можно использовать электрический резак мощностью выше лошадиной с водяным охлаждением станка.

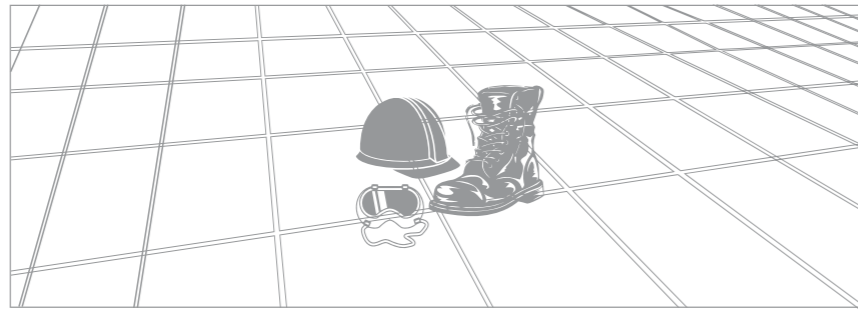

- Para cortar las piezas de cerámica, puede usar un cortador manual.
- Para cortar las piezas más duras, puede usar la cortadora eléctrica con más de 1 caballo de fuerza con agua para enfriar la máquina.

- after installation, the maintenance of the products is imperative.
- in order to clean the residuals of soil, cement, bonding powder and cross linings, immediately use the neutral buffer and detergent after installation.
- the use of the neutral detergents for daily cleaning and washing is recommended.
- Avoid the abrasive detergents to clean the decorative sections of the products.
- the use of the neutral detergents and the certitude for cleaning the third baked products with the different lead, gold, silver coatings etc. are necessary.

- Уход и техническое обслуживание продукта после установки очень важны
- Для очистки от грязи, цемента, связующего порошка и перекрестных линий используйте нейтральный буфер и моющее средство сразу после укладки.
- Для ежедневной стирки и уборки рекомендуется использовать нейтральные моющие средства.
- Избегайте использования абразивных моющих средств для очистки торговых секций изделия, необходимо использование нейтральных моющих средств для очистки трехкратно выпеченных изделий со свинцовым, золотым, серебряным или другим покрытием.

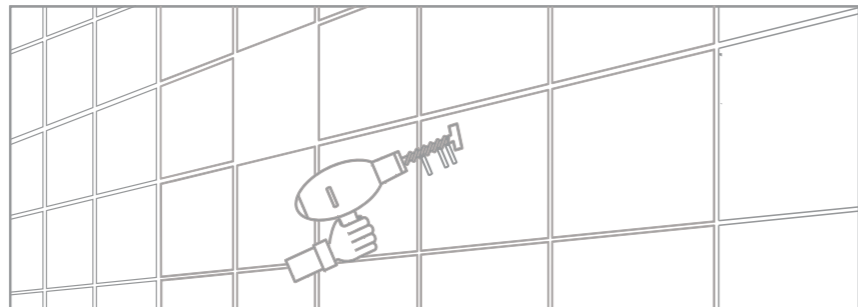

- Después de la instalación, el mantenimiento de los productos es imprescindible.
- Para limpiar los residuos de tierra, cemento, polvo de unión y revestimientos cruzados, use inmediatamente el tampón neutro y el detergente después de la instalación.
- Se recomienda el uso de detergentes neutros para la limpieza y el lavado diarios.
- Evite los detergentes abrasivos para limpiar las secciones decorativas de los productos.
- Es necesario el uso de detergentes neutros y la certeza para limpiar los terceros productos horneados con los diferentes recubrimientos de plomo, oro, plata, etc.

- When carrying the products and dislocating the pieces, it is recommended to choose the correct method.
- the safety shoes, gloves, goggles and earplugs must be used, when cutting the products.

- Рекомендуется использовать правильный метод при переноске и замене деталей.
- При разрезании продукта необходимо использовать защитную обувь, перчатки, очки и беруши.

- Cuando transporte los productos y disloque las piezas, se recomienda elegir el método correcto.
- Deben usarse zapatos de seguridad, guantes, gafas y tapones para los oídos al cortar los productos.

- Diamond-sized screw drill should be used to perforate the product.

- Для сверления изделия следует использовать алмазное сверло для ногтей (очень маленькое).

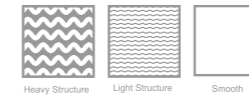

- Se debe usar un taladro de tornillo de diamante para perforar el producto.

INHABIT THE PRESENT LIVE THE FUTURE

KCT BUILDING MATERIAL create tile and ceramic collection to live the present and the future, surrounded by beauty, protected by the quality of an exclusive design of living in total freedom.

The same beauty and marvelous harmony the we dream for the world around us.

For this,KCT BUILDING MATERIAL create protects, by reducing to its minimum the environmental impact coming from its activity through the constant research of the total eco-sustainability in the working environment, on the materials used and in the productive processes, as the obtained environmental certificates demonstrate.

We want to contribute for a better world only what is really eco-sustainable can be considered as development with future vision.
